California Travel Company Outreach List

For Karla Safari Adventures - Kenya partnership prospecting

Scope

This list focuses on California-based or California-registered travel and tour businesses with public contact emails or official contact paths. It intentionally includes different company types: safari specialists, luxury advisors, adventure tour operators, general international agencies, group/incentive travel, student travel, and theme travel. Compiled on June 3, 2026.

How to use this list

- Prioritize High first: these companies already sell Africa, custom travel, safari, wildlife, luxury, or adventure products.
- Keep the first email short. Ask whether they work with Kenya ground partners or want fresh Kenya itineraries for their clients.
- Send 2-3 polished sample itineraries: luxury safari, family safari, and safari + beach or Kenya/Tanzania combination.
- Personalize each message. Mention why Kenya fits their current travel style, then offer net rates, fast quotes, and reliable operations.
- Verify each address before a large send and follow anti-spam rules. Public business emails are for careful B2B outreach, not bulk blasting.

Subject: Kenya safari partnership idea for your clients

Hello [Name/Team],

My name is [Your Name] from Karla Safari Adventures, a Kenya-based safari company. I noticed your company creates [luxury/adventure/group/custom] travel experiences, and I wanted to ask whether you currently work with trusted local partners for Kenya.

We can support your advisors with private Kenya safari itineraries, fast quotes, reliable vehicles and guides, lodge recommendations, airport transfers, and custom trips for families, honeymooners, small groups, students, and incentive travelers. Popular options include Masai Mara, Amboseli, Samburu, Lake Naivasha, Nairobi experiences, and safari + beach extensions.

Would you be open to reviewing 2-3 sample Kenya itineraries and net partner rates? I would be happy to send a concise product sheet and schedule a short call.

Kind regards,
[Your Name]
